

Glasurit RATIO Truck System

BRILLIANT. EFFICIENT. DURABLE.

ProFit with Glasurit.

GLASURIT 68 LINE – A BRILLIANT ACHIEVEMENT!

With its clearly arranged and well-designed product portfolio, the Glasurit RATIO Truck System offers you numerous possibilities for achieving painting results that meet all your requirements and are brilliant, efficient and durable. And with the

system, we do not just offer products; we also provide comprehensive solutions for your business – from support with color matching to process optimization in your bodyshop.

ONE SYSTEM, MANY OPTIONS.

All components of the Glasurit RATIO Truck System, from body filler to primers, as well as topcoats and clearcoats, are perfectly coordinated with each other. At the heart of the system is the 68 Line HS 2K CV Topcoat system that you can use to mix some 55,000 different colors from a selection of mixing bases. The use of additives opens up even more possibilities. The waterborne 90 Line topcoat system can also be used with its wide range of solid, metallic and pearl-effect colors.

UNIVERSAL APPLICATION.

The perfect solution on all substrates and for any application

- for refinishing, original coating or the coating of small series
- for simple steel constructions, chassis and high-quality buses
- from economical repair to first-class high-quality coating
- as always, VOC-compliant and chromate-free

OUR SERVICE. FOR HIGHER EFFICIENCY.

Take targeted action to boost your bodyshop's efficiency. To assist you, Glasurit offers you a whole range of service modules, including efficient color tools, a comprehensive training program, as well as optimization of the workflows in your bodyshop. The CV gray shade concept also ensures higher efficiency, offering the possibility to match the primer filler with the topcoat color.

GLASURIT 68 LINE – NEVER-ENDING ADVANTAGES:

BRILLIANT

- Excellent flow
- Quick curing with optimum surface hardness
- Superior hiding power with good edge cover

YOUR BENEFITS:
