

RODIM[®] – By professionals for professionals

Portfolio of perfectly suited paint-related products

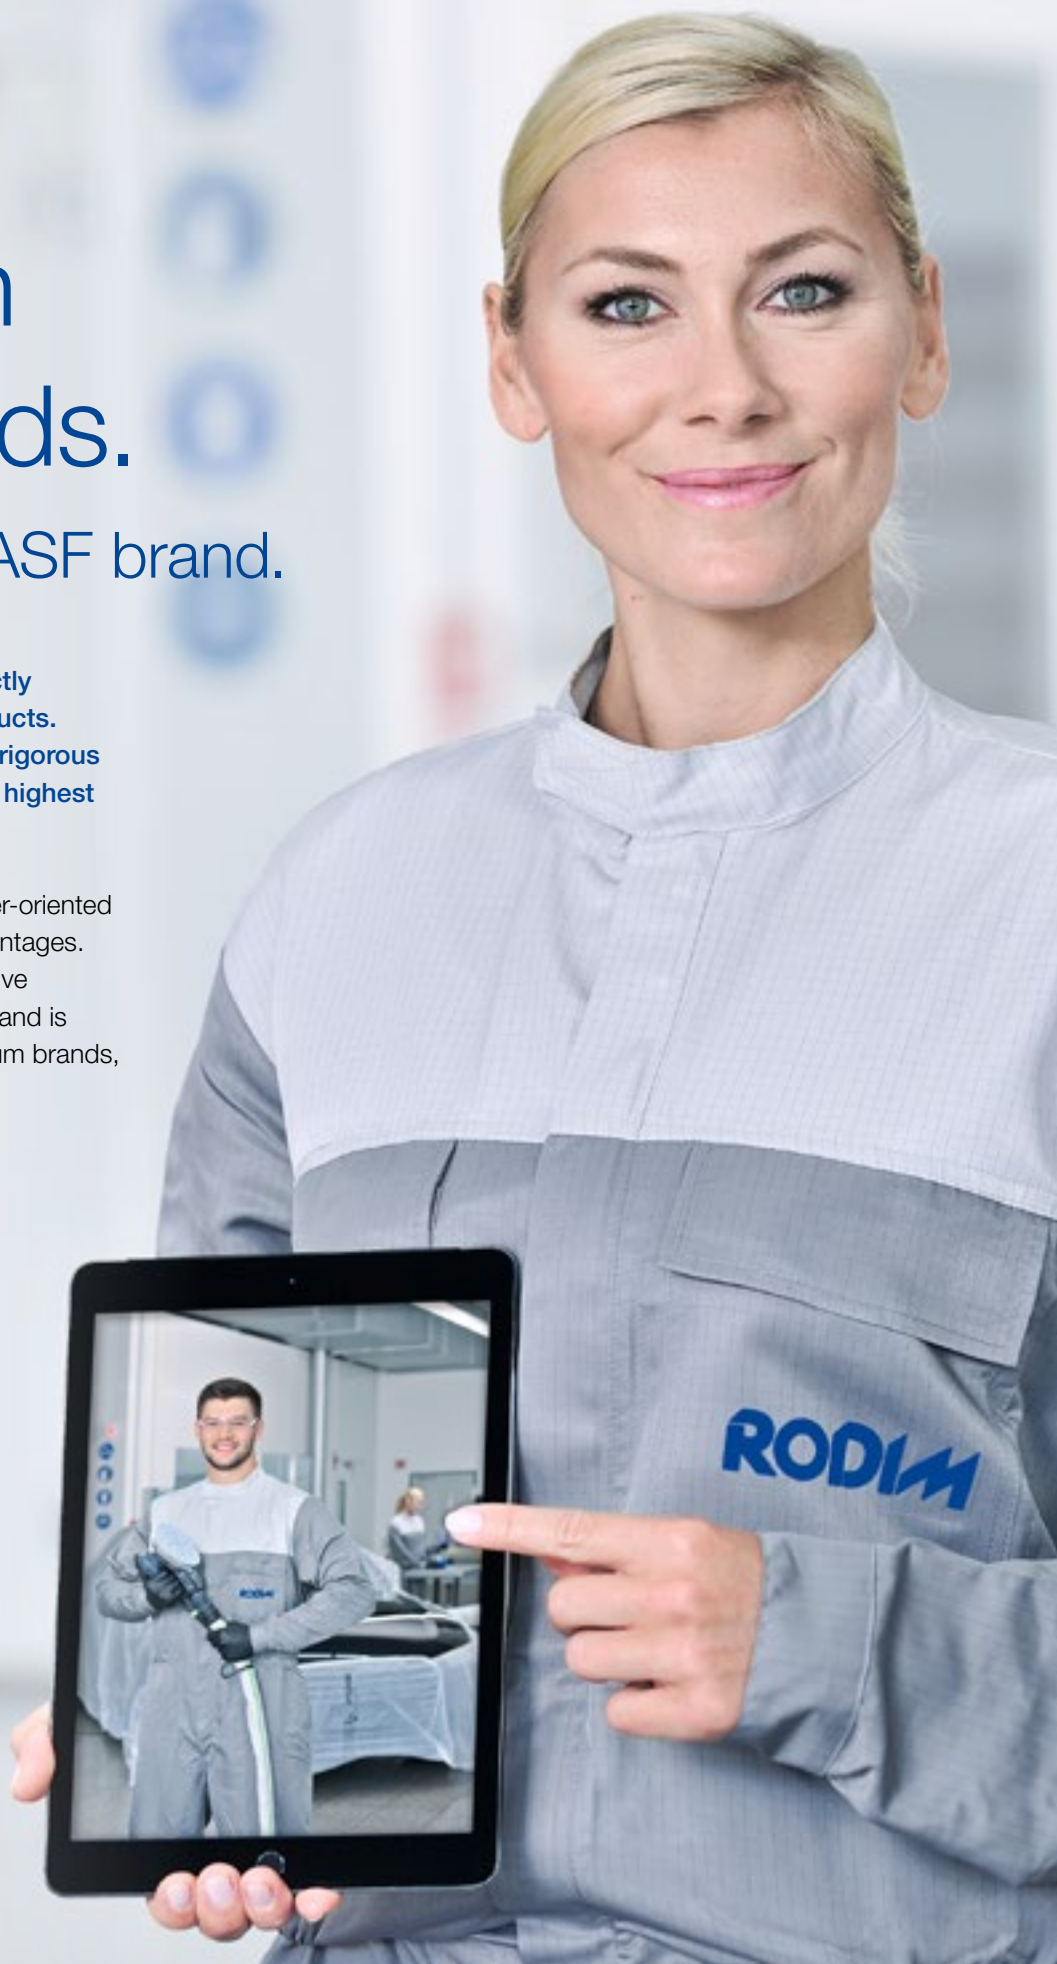

Quality in your hands.

RODIM® – A BASF brand.

RODIM offers bodyshops a perfectly suited range of paint-related products. All products have gone through a rigorous selection procedure and meet the highest demands.

The high product quality and the user-oriented product range are two decisive advantages. RODIM benefits from BASF's extensive experience in the coatings business and is perfectly aligned with the two premium brands, Glasurit and R-M.

Protection

Safety has priority – but protection and a comfortable fit do not have to be mutually exclusive. RODIM offers a choice between standard and premium accessories for personal protection so that professionals are fully protected!

Masking

Meticulous masking and taping are prerequisites for good results. To make these tasks easy, RODIM offers a comprehensive range of films and masking tapes for all vehicle parts.

Sanding

RODIM sanding discs make sanding playfully easy. The wide selection of standard and premium products with the grit sizes we recommend ensures that any substrate can be sanded correctly. This makes sanding fun!

Painting and mixing

Mixing paint is enjoyable if you have the right size mixing cup at hand and you can store excess amounts for use at a later time, that is, if you can save time and material when you work. RODIM offers the right product range for this purpose.
