

SATA® Special Edition Spray Gun

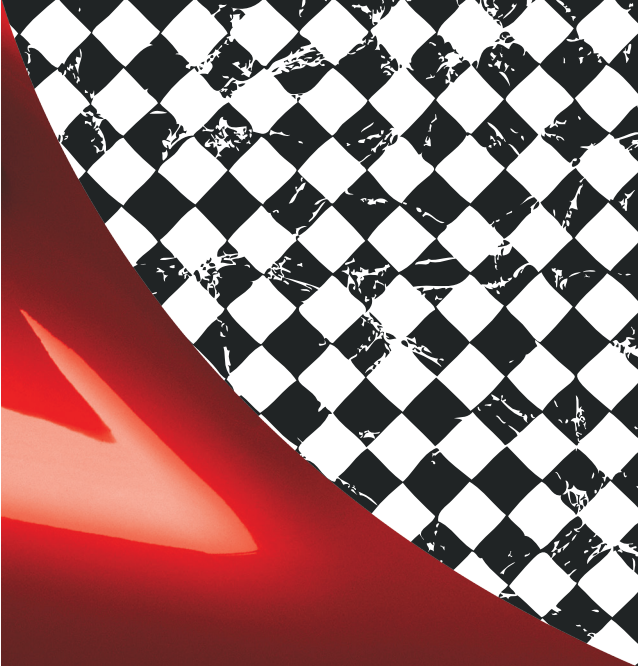

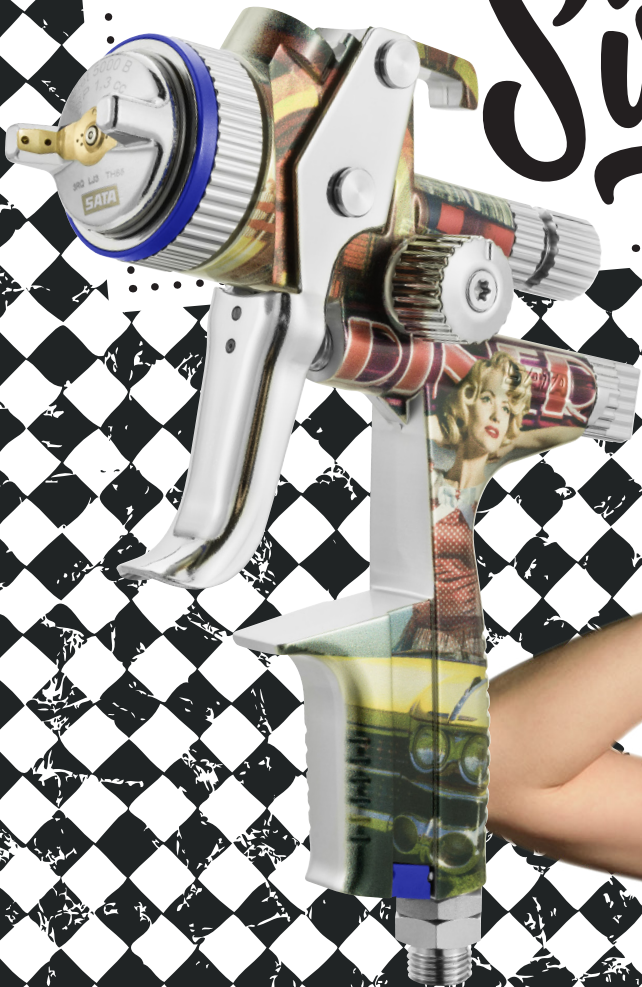

from 11 September until 31 October 2018

German Engineering

...SATAjet® 5000 B

Sixties!

**SATAjet 5000 B Sixties – Rock n' Roll with SATA!
from 11 September until 31 October 2018**

Complementary to the show motto "Sweet Sixties", SATA is offering the SATAjet 5000 B high-performance spray gun with a particularly attractive special surface coating. Themes and motifs typical of the Sixties tell a colourful story from a by-gone era.

Who doesn't know them, all the beautiful things which dominated the Sixties and which even today still fascinate and thrill the younger generations? The SATA Special Edition model 2018 is reminiscent of this era.

The SATAjet 5000 B Sixties is, of course, a fully functional

spray gun suitable for daily use in the spraybooth due to its robust special surface coating.

Order now one of these special spray guns from your SATA distributor during the promotion period from 11 September until 31 October, 2018.

- The SATAjet 5000 B premium spray gun with a unique and colorful coating finish
- Available in non-digital and DIGITAL® version, in HVLP and RP technology – while supplies last
- Time-limited Special Edition

Please note: The intricate finishing process of the spray gun surface could lead to slight colour deviations. Changes in colour, for example caused by exposure to daylight, are also possible.

	HVLP	1,2	WSB	1,3	-	1,4	1,5	-
